The Detroit born Blues-rocker **Eliza Neals** pays homage to the one and only **Chester - Howlin' Wolf - Burnett** by transforming his epic genre creating hit song "Little Red Rooster" into her own modern Blues-rocker "**Speedy Beady**" the true story of a Detroit music legend and his pet rooster.

"**Speedy Beady**" (the rooster with so much charm) lived in the city of Detroit and his exploits were legendary as he strutted his stuff up and down 7 Mile road and Livernois for a few years. Feathered and fabulous Speedy Beady caused quite a commotion in this real life blues-tale.

"Speedy Beady" is the second single from Eliza Neals' upcoming 13th studio album in production on E-H Records LLC. Written and co-produced with Eliza's long time musical partner Michael Puwal (Kenny Wayne Shepard, Alberta Adams) this philandering frolicking bird will leave you speeding down Woodward Avenue.
